AREA OF COMPETITION	A	B	C	D	E
Name

For each area, write the average of the judges' scores. Then multiply each average by its weight and add the five: that is the contestant's total out of 10.

NO.	CONTESTANT	A	B	C	D	E	TOTAL	PLACE

Example. Interview 30%, Talent 20%, Fitness 20%, Evening wear 20%, Onstage question 10%. Averages of 8, 7, 9, 8 and 6 give 8 × 0.3 + 7 × 0.2 + 9 × 0.2 + 8 × 0.2 + 6 × 0.1 = **7.8**. Decide your tiebreaker before the pageant (for example, the higher interview score) and write it here: _____
